LEADERSHIP TRAINING 2021

In 2021, Axion and Energy hosted the first Leadership Training class for apprentices and journeymen. The final day of training was held at Gillette Stadium! We are committed to the success of our employees and look forward to more training classes in the near future.

WOMEN IN CONSTRUCTION

In March, we hosted a lunch for our women insulators to celebrate Women in Construction week. It was a proud moment to recognize these ladies for all their hard work!

SAFETY FIRST!

In July, we held our Quarterly Foreman Meeting next door at Gillette Stadium! What a great opportunity to have our 50 Foreman get together to discuss safety on the job.

Each Foreman received a backpack for their job sites filled with safety items including lockout kits, first aid kits, gloves, burn gel, emergency eye wash, lens wipes, ear plugs, ice packs and more!

MEET THE APPRENTICE - TRISTON GREEN

- How long have you worked for Axion?
 - I have worked for Axion for 8 weeks.
- What made you join the local?
 - I joined the local to provide a better life for my family.
- What time would you travel to if you were given a time machine?
 - If I had a time machine I would travel back 2 years to when I was first presented with a opportunity to join the local.
- If you had to eat the same meal for the rest of your life, what would it be?
 - If I had to eat one meal for the rest of my life it would be a rib eye cooked mid rare with a side of Mac and cheese.
- What are some goals for your career?
 - For my career would be to get promoted up as far as I can.

We would like to recognize some of the locals we are currently working with!

SUPPORT YOUR LOCAL

PROJECT SPOTLIGHT

USDOT VOLPE

As part of its January 2017 agreement with the federal government, MIT will build a new headquarters for the U.S. DOT Volpe Center on approximately four acres. The building site is located in the northwest corner of the parcel. The new facility will consolidate operations that are currently carried out in six different buildings on the site. The design includes robust sustainability and resiliency features, including solar panels on the roof that will supply at least 30 percent of the building's hot water demand, and high-efficiency heating, ventilation, and cooling equipment. The team designed the layout to maximize daylight into the building, and designed fins on the exterior facades to minimize heating and cooling loads.

PROJECT SPOTLIGHT

LOWELL HIGH SCHOOL

BUILDING FOR THE FUTURE

The new school is not only the largest in the city's history, it is also among the largest projects for the Massachusetts School Building Authority. The project encompasses 622,777 square feet, comprising 388,262 square feet of renovated space and 234,515 square feet of new construction, including the gymnasium and Freshman Academy.

The phased occupied addition/renovation of Lowell High School will take place over 6 years in 4 Phases. Phase 1 new gymnasium started in October 2020 and will be completed in August 2022. Phase 2 new Freshman Academy Building, main entrance and cafeteria will be constructed June 2022 through April 2024.

The \$343 million project is slated to be fully complete for the 2026-2027 academic year and will serve 3,520 students in grades 9-12.

AXION CELEBRATES 10 YEARS IN BUSINESS!

Since our start in 2012, Axion has expanded their business into most of the Northeast! We have worked on jobs in Massachusetts, Rhode Island, Connecticut, New Hampshire, Maine, and New York.

FUN FACTS

- Definition of **AXION**: a hypothetical subatomic particle of low mass and **energy** that is postulated to exist because of certain properties of the strong force
- How many hours do you think Axion and Energy employees have worked since 2012? We did the math to find out! Over the last 10 years - **2,232,295 HOURS!**

PAN-MASS CHALLENGE

This year, our very own Paul Camara participated in the Pan-Mass Challenge and rode 190 miles!

The Pan-Mass Challenge is a Massachusetts-based bike-a-thon. Always held the first weekend in August, the PMC raises funds for Dana-Farber Cancer Institute, a world leader in adult and pediatric cancer treatment and research.

100 percent of all rider-raised funds go directly to cancer research and treatment at Dana-Farber and the Jimmy Fund.

PMC has raised \$51 million year to date with a goal to reach \$66 million!
